

PITCHED ROOF COVERED WITH CERAMIC TILES

Vertical mounting for pitched roof covered with ceramic tiles - DS.DC.1V

Technical specification

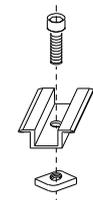

System material	aluminium and stainless steel
Type of roof	pitched roof
Module orientation	vertical
Mounting system	on the long side on an adjustable hook 501.020
Roof area for 1 kW	6,65 m ² (for module 1650x992)
Roof load (without modules)	18,3 kg/1kW 2,75 kg/m ²

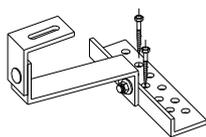

closing clamp 102.003
 allen screw 202.003
 hammer nut 203.001

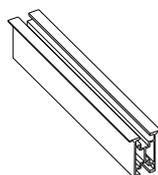

middle clamp 102.001
 allen screw 202.003
 hammer nut 203.001

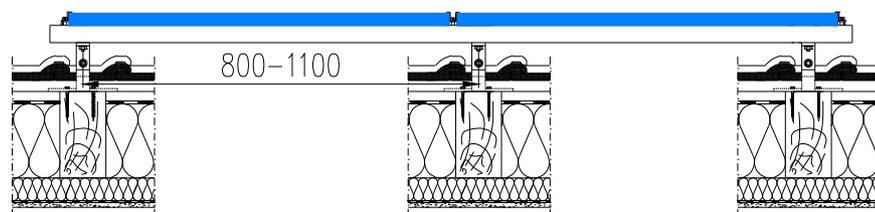

adjustable hook for ceramic tile 501.020
 wood screw 6x80 204.006
 enlarged washer 6,4 205.007

mounting rail 38x45 101.001

cross-section A-A

cross section B-B
